

Instant Replay²

NETWORKED DIGITAL AUDIO

All You've Come To Expect...
Plus A Little More

Instant Replay²
Now With Networking

Instant Sound Effects. Instant Music. Instant Fun.

Features

- ▶ Instant access to 1,000 cuts
- ▶ New! Ethernet networking for file transfer and backup
- ▶ New! 16/24-bit, 44.1/48kHz recording formats
- ▶ New! WAV file support
- ▶ New! Balanced +4dBu and unbalanced -10dBV audio I/O
- ▶ Precise editing of heads, tails, fades and levels
- ▶ Large illuminated buttons for easy hands-on operation
- ▶ Displays cut names, ID numbers, and length
- ▶ Store multiple playlists of any size

360 Systems' Instant Replay² places 1,000 audio cuts at your fingertips! Get instant access to an entire audio library of your own creation.

Instant Creativity

Pack it up for the road, or install it in the studio or control room. Instant Replay² is designed for creative people who need quick response, intuitive operation, and top-quality audio. It's a completely self-contained production studio and spot player in a box. And, unlike PCs, Instant Replay² has the immediacy of *real buttons*.

Intuitive operation

Straightforward controls make operation easy and intuitive. Instant Replay² records better-than-CD-quality audio directly to hard disk, edits it, and then provides playback from 50 Hot-keys. Play your cuts instantly, in any order, as many times as needed. When audio elements are needed in a special sequence, Instant Replay² lets you build playlists, and store them for future use.

Storage To Spare

Instant Replay² stores 24 hours of stereo on its large internal hard disk. There's never a restriction on cut length – record anything from a short sound effect to full-length musical performances. Instant Replay² always delivers premium audio quality, with zero delay.

Powerful Editing Features

Our "Dash-E" software includes powerful editing tools like head and tail trims, fade-ins, fade-outs, and even gain changes. Now it's easy to extract sound effects from a bed, or make loops of music and ambient effects.

Find Audio Clips Fast

Instant Replay² arranges cuts in 10 banks of 50, so related sound effects or music cues can be stored together. The built-in keyboard makes it easy to give each cut a name and unique ID number.

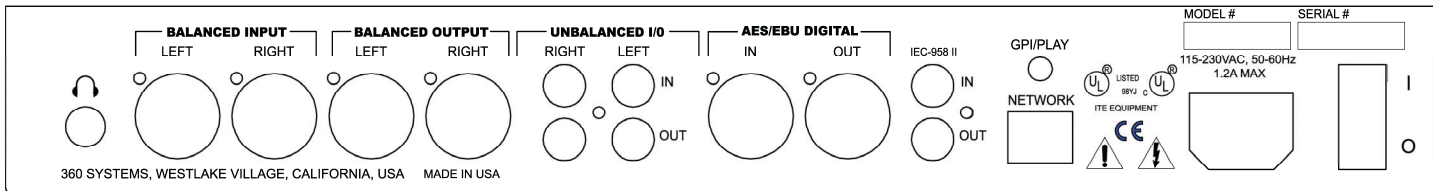

Now With Networking

Instant Replay² includes a 100Mb Ethernet port for transferring files to and from a PC. Now quickly back up your entire audio library, or transfer audio to a PC for editing – it's as easy as point-n-click.

The Original

360 Systems' Instant Replay² is perfect for Radio, Television, Audio/Visual, or Live Events – any application where quality music or effects play from your own audio library. Instant Replay² – the Original Hot-Keys audio player.

Instant Replay² Specifications

Audio Performance

Audio Format	16/24-bit stereo, 48k or 44.1k linear PCM
Input Sample Frequencies	24k to 56k samples/second, converted to 44.1k or 48k via sample rate converter
Analog Inputs	Balanced, XLR-3F connectors; Zin = 15KΩ Unbalanced RCA connectors; Zin = 10KΩ
Maximum Input Level	+27dBu balanced
Input CMRR	> 80 dB @ 60Hz
Analog Outputs	Balanced, XLR-3 connectors, +4dBu Unbalanced RCA connectors, -10dBV
Maximum Output Level	+24dBu balanced
Frequency Response	20Hz to 20kHz ± 0.5dB
Dynamic Range	> 90dB
THD+N (@ 48k linear)	< 0.005%
Digital I/O	AES/EBU data on XLR-3 connectors AES3-ID data on RCA jacks IEC-958 type II (semi-pro) on RCA jacks

General Specifications

Total Recording Time	> 250 hours @ 44.1k, 16-bit
Recording Medium	3.5" internal hard disk
Maximum Number Of Cuts	1,000
Maximum Cut Length	Equal to remaining time on disk
File Import/Export	.WAV Files
File Backup	FTP via 100Mb Ethernet port
Audio Level Metering	LED bar graph display, 2-channel, peak-reading
Display	2 line x 20 character, vacuum fluorescent
Panel Buttons	Illuminated, silent action

Mechanical / Miscellaneous

Headphones	Stereo 1/4" (6.35mm) jack, with level control
Power Requirements	95 to 240 volts, 50/60Hz, 25 watts
Dimensions	5" x 15" x 9" (127mm x 381mm x 229mm)
Weight	9.5 lbs. (4.3kg) net
Agency Approvals	UL, C-UL, FCC Class A, RoHS
Country Of Origin	USA

Accessories

Keyboard Legend Overlays
